How you access the dashboard will depend upon your service and access level. It is important to note that only School Administrators, School Masters, District Administrators, and District Masters will have access to the dashboard. If you are not a School Administrator or higher, you will not see the dashboard. Find your main platform below, then follow the provided steps:

Gaggle Safe Learning Management System

+ Log in to the Gaggle interface at https://apps.gaggle.net/.

+ Select the **Safety** tab, located at the top of the interface, and you will navigate to the dashboard.

Or

+ After logging in to Gaggle, you can access the dashboard by selecting the **Admin** tab and choosing the orange **Safety Dashboard** button at the very top of the left panel.

Google Apps for Education and Microsoft Office 365

+ Navigate to apps.gaggle.net/safety and log in using your Gaggle credentials.
